Issue 7 AUTUMN 2011 | Serving the energy industry

Energy Profile

Today Media Ltd (TML) has become over the past six years a well-known publisher in the energy industry. Working with leading organisations over this period TML has built up an extensive list of contacts throughout the industry and has gained a unique insight into its requirements from every aspect:

> Governments require a clear guide to the latest developments in technology around the world on which to base their policies on energy provision and support for their energy industries.

> Operators and Contractors require not only an in-depth knowledge of the latest technology, but also a source point for suppliers, and - just as importantly - a point of communication with suppliers from which to build sound and reliable supply chains to projects both local & remote.

> Suppliers have a need to communicate with Contractors and Operators to ascertain their requirements at both existing & developing projects, and to outline in detail the latest services, technologies and systems that they have on offer so as to demonstrate effectively the role that they can play in improving efficiency and bottom-line profits.

Energy Profile Magazine & Website meet these requirements with the latest developments in print, database, Internet and video technologies combined with a distribution list from the highest levels of Government, Operators and Suppliers.

The magazine

Energy Profile is written by an established editorial team of recognised journalists and experts, working with the leading organisations in the energy industry, and cover the Oil, Gas, Nuclear, Power, and iEnergy and Renewables sectors of the market. Among the subjects covered in the last edition included:

Marine and subsea operations Hugh Williams, chief executive of the International Marine Contractors Association explores the future

Turning a digital oilfield into a reality A project and programme management perspective by PIPC's Helen Ratcliffe

A dramatic approach to HSE intervention
By understanding the factors that influence human behaviour, we can create a safer work environment

Safety lessons from other sectors By Professor Alan Braithwaite, LCP Consulting and Cranfield School of Management

Energy and the sea A troubled relationship?
SUT'S Ian Gallett considers mankind's relationship with the ocean and the impact on energy production

A nuclear milestone: Berkeley decommissioning From construction to destruction

Surf's up Energy Profile speaks to Shamin Suleman, vice-president of Audubon Engineering's newly minted SURF Division

Making waves The Wave Hub Project offers the biggest est site for arrays of wave energy converters, explains general manager Guy Lavender

Supplements cover subjects such as iEnergy, Skills, Education and Training, Subsea & ROVs and Hydrographic & Seismic >>

Energy Profile distribution

Published bi-annually Energy Profile is distributed at all the major energy events worldwide, including:

Asia Pacific Asia Pacific Oil & Gas Conference and Exhibition (APOGCE) 20-22 September 2011; Jakarta, Indonesia

International Petroleum Technology Conference (IPTC) 15 – 17 November 2011; Bangkok, Thailand

Deepwater 30th Deep Offshore Technology Conference & Exhibition 11 – 13 October 2011; New Orleans, USA

OTC Brasil 4 – 6 October 2011; Rio de Janeiro, Brasil

Caspian Sea 19th Kazakhstan International Oil & Gas Exhibition & Conference (KIOGE) 5 - 8 October 2011; Almaty, Kazakhstan

Georgian International Oil, Gas, Energy and Infrastructure Conference & Showcase (GIOGE) 28 - 29 March 2012; Tbilisi, Georgia

Arctic & Extreme Environments SPE Arctic & Extreme Environments Conference & Exhibition 18 – 20 October 2011; Moscow, Russia

Ocean Sciences Oceanology International 13 - 15 March 2012; London, UK

Renewables All Energy Australia 12 – 13 October 2011; Melbourne, Australia

European Wind Energy Association Conference & Exhibition 16 - 19 April 2012;

The mail-out comprises: (Named individuals)

- Oil & Gas Operators: Abu Dhabi Marine Operating Company (ADMA-OPCO); Agip Kazakhstan North Caspian Operating Company NV; Azerbaijan International Operating Company; Bapco - The Bahrain Petroleum Company; BG Americas and Global LNG - C&N America; BG Americas and Global LNG - South America; BG Group; BHP Billiton; BP America Production Company; BP Berau; BP Exploration Operating Company Ltd; Brunei Shell Petroleum Company Sdn Bhd; Cairn Energy India Pty Ltd; Chevron Brasil Petroleo Ltda; Chevron Energy Technology Company Subsea; Chevron Nigeria/Mid-Africa; Chevron Shipping Co.; Chevron Thailand Exploration & Production Ltd; CNR International UK

Ltd; ConocoPhillips; ConocoPhillips (UK) Ltd; ConocoPhillips China; Dana Petroleum Netherlands BV; Dana Petroleum plc; Dolphin Energy Ltd; Equion Energia Limited; Esso Australia Pty Ltd; ExxonMobil Development Company; GDF Suez E&P Nederland bv; Gulf of Suez Petroleum Company (GUPCO); Husky Energy; Instituto Brasileiro de Petróleo, Gás e Biocombustíveis; International Association of Oil & Gas Producers (OGP); Kuwait Oil Company; Maersk Oil North Sea Ltd; Maersk Oil Qatar AS; Mobil North Sea LLC; Murphy Sarawak Oil Co. Ltd; National Offshore Petroleum Safety Authority; Nautilus Minerals; Nederlandse Aardolie Maatschappij BV; Newfield Peninsular Malaysia, Inc; Nexen Petroleum UK Ltd; Noble Energy; Oil & Natural Gas Corporation Ltd; Perenco UK Ltd; Petrobras; Premier Oil Natuna Sea; Premier Oil ONS Ltd; PT Pertamina Hulu Energi ONWJ; PTT Exploration & Production plc; Qatar Petroleum; Ras Laffan Industrial City; Sarawak Shell Berhad; Shell International Exploration & Production bv; Shell Petroleum Development Company of Nigeria Ltd; Shell Todd Oil Services Ltd; Sonangol Pesquisa & Produção; Statoil ASA; Suncor Energy Inc.; Talisman Energy (UK); Talisman Malaysia Ltd; Total Austral (Argentina); Total E&P Indonesia; Total E&P Nederland BV; Total E&P UK Ltd; Total Exploration & Production; Wintershall Noordzee BV; Woodside Energy Ltd; Zakum Development Company (ZADCO)...

- Contractors: Subsea 7, Heerema Marine Contractors, Helix Energy Solutions, Allseas, Technip, Saipem, McDermott International, Transocean, Stena Drilling, Sevan Drilling, Seadrill, Pride International, Odfjell Drilling, Mohn Drilling, Maersk Drilling, Greatship Drilling, Dolphin Drilling, COSL Drilling Europe AS...

- Service/OEM Companies Cameron, Expro Group, JP Kenny, Technip, Schlumberger, GE Oil & Gas, FMC Technologies, Dril-Quip, DOF Subsea, Fugro, Weatherford, Baker Hughes...

- Oil & Gas personnel in Energy Ministries worldwide. Over 130 ministries reached from Saudi Arabia to Venezuela!

- CCSA (Carbon Capture & Storage Association) – global corporate membership from all sectors including Oil & Gas, Power Generation, Banking and Carbon Storage..

"The aim for any editorial in a B2B publication is to engage the reader. The best way to do this is to provide concise, up-to-date information about a specific project or innovation your company is currently working on, including recent developments and its practical application. Attention-grabbing articles are not usually laden with 'pr-speak', but rather lets your technical and industry knowledge speak for itself. As opposed to display advertisements, the goal is to give a teaser about your company without going into long detail of corporate history, etc, but rather to tell them something they didn't know already. That could be how your product or service is changing how your customers do business, and what they can achieve with them. If you would like to discuss your editorial goals in more detail, I would be glad to hear from you."

Katrina Bell, **Energy Profile** Editor
